

IP8133/33W

Fixed Network Camera

1MP • Privacy Button • Compact Design

VIVOTEK IP8133(PoE)/33W(Wireless) are easy-to-use network cameras specifically designed for home security applications with compact, stylish exteriors. Equipped with a 1MP sensor enabling viewing resolution of 1280x800 at 30 fps, users need to look no further for an all-in-one camera capable of capturing high quality, high resolution video.

The cameras support the industry-standard H.264 compression technology, drastically reducing file sizes and conserving valuable network bandwidth. With MPEG-4 and MJPEG compatibility also included, video streams can also be transmitted in any of these formats for versatile applications.

The IP8133 & IP8133W add advanced functions such as PIR, white light LED, and speaker. The wireless model IP8133W is embedded with dual antennas and IEEE 802.11n wireless technology, which greatly enhances the transmission and range of the wireless connection. Moreover, the WPS button ensures a minimum of configuration time for wireless connections.

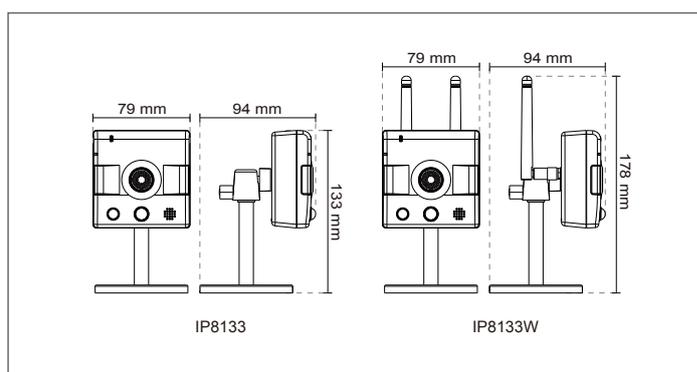

The cameras also include VIVOTEK's free ST7501 32-channel recording software. With all this and more, any user can quickly and easily view children, the elderly, or even pets with live, clear videos while away from home.

Features

- > 1-Megapixel CMOS Sensor
- > Real-time H.264, MPEG-4 and MJPEG Compression (Triple Codec)
- > Privacy Button to Pause Monitoring
- > Tamper Detection for Unauthorized Changes
- > Built-in PIR Sensor for Unauthorized Intruder Detection
- > Built-in White-light Illuminators for Event Triggering
- > Built-in 802.3af Compliant PoE (IP8133)
- > Built-in 802.11b/g/n WLAN (IP8133W)
- > Wi-Fi Protected Setup (WPS) for Easy and Secure Wireless Network Connection (IP8133W)
- > Built-in Microphone and Speaker for Two-way Audio
- > Compact, Elegant Design
